Zusammenarbeit (GIZ) GmbH

Hotel Radisson Blu Antwerp, 3-4 October 2024

"Innovation and sustainability in the tropical forestry sector"

We are delighted to announce that the next International Tropical Timber Technical Association (ATIBT) Forum will be held in Antwerp on October 3-4, 2024. Following the success of the previous forum held in Nantes in 2022, this event promises to be an exceptional opportunity to once again bring together key players in the tropical wood industry and tropical forest managers from around the world. With a focus on innovation and sustainability in the tropical forestry sector, particularly through the implementation of the EU Regulation against Imported Deforestation and the measures taken at CITES level, this forum will provide us with a unique platform to discuss current challenges and emerging opportunities in the management and conservation of tropical forest resources. Join us in Antwerp for enriching exchanges, inspiring presentations and fruitful partnerships at this must-attend event for the tropical timber industry and the sustainable management of tropical forest basins.

The detailed program of the forum as well as the information about the city and port of Antwerp can be found on the ATIBT website
