

# EUDR & FSC are mutually supportive

1. FSC has **fought deforestation for 30 years**: our standards prevent deforestation and degradation.
2. FSC can **effectively complement and support sustainability due diligence legislations**, including EUDR (e.g. WWF EUDR Guidance, 2024; UNCTAD, 2024).
3. FSC is an **effective tool to fight deforestation** (e.g. Tritsch and all, 2020)

# Supporting compliance – FSC Aligned for EUDR

# FSC advocates for the good wood for the good use

- Growing market for tropical timber
- Particularly from public authorities: need the highest sustainability guarantees

# The Journey of Tropical Wood

How Tropical Timber from the Congo Basin keeps Amsterdam Afloat
