***International Forum***

***Together Towards Global Green Supply Chains***

***- A Forest Products Industry Initiative -***

***22–25 October 2019  
Shanghai & Huzhou, China***

---

ITTO, in partnership with the China Timber & Wood Products Distribution Association (CTWPDA), the Centre for International Forest Products Trade of National Forestry and Grassland Administration of China (CINFT/NFGA) and the International Tropical Timber Technical Association (ATIBT), will co-organise the above ***International Forum: Together Towards Global Green Supply Chains – A Forest Products Industry Initiative***, to highlight the importance of legal and sustainable wood products supply chains and promote the establishment of a joint platform to facilitate business information exchange and collaboration between wood product producers, buyers, processing industries and wood product market representatives nationally and internationally. The forum is expected to be attended by 350-400 participants from the private sector, international donors, governments, civil society and academia.

***Please visit our website soon for further details on the International Forum, Registration, Draft Agenda and travel logistics (visa, etc.)***
