Presentation of NEPCon

NEPCon简介

Area of focus 关注领域

Conservation
自然保护

Utilisation of
Land 土地利用

Traceability
可追溯性

Approvisionnement
responsable
负责任采购

Key milestones发展过程

1994

Fondee a Aarhus,
Danemark

1995

Projet sur les gestion
durable des forets

1996

Membre du Forest
Stewardship Council™
(FSC™)

1999

1ere certification FSC - En
partenariat avec
Rainforest Alliance

2007

Programme de Formation;
Global Forest Registry

2013

LegalSource™
EU Timber Regulation
Organisation Monitoring

2014

Accredite FSC

2015

Accredite Sustainable
Biomass Program
(SBP)

2017

Accredite Roundtable on
Sustainable Palm Oil (RSPO)
Sourcing Hub launched

2018

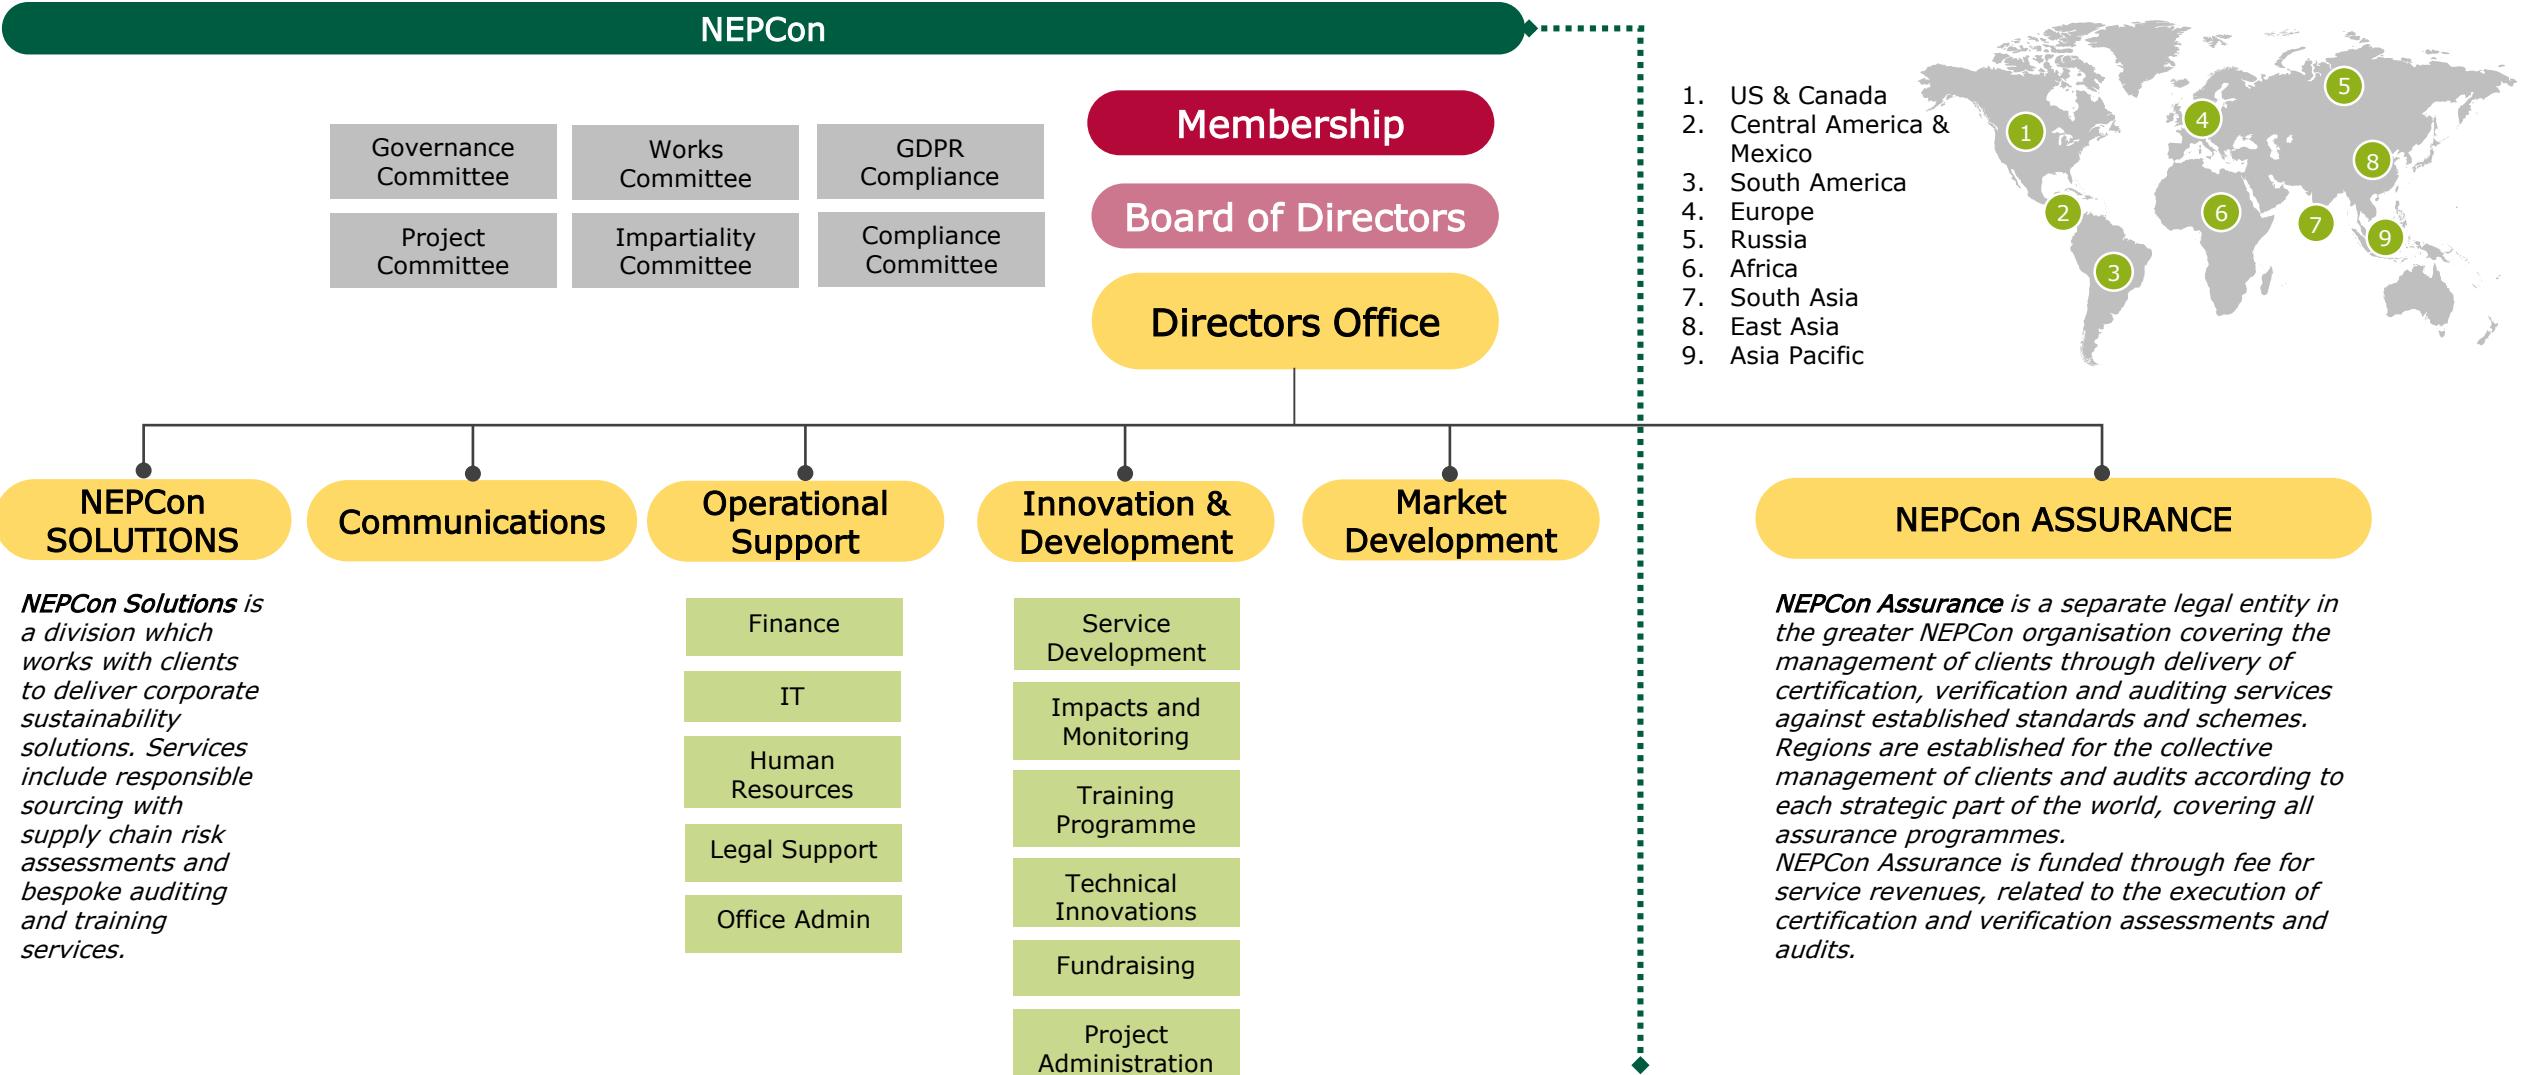

Acquisition par NEPCon de Rainforest Alliance "RA-Cert"
Etendue des services (tourisme, agriculture) et etendue
geographique (6 continents)

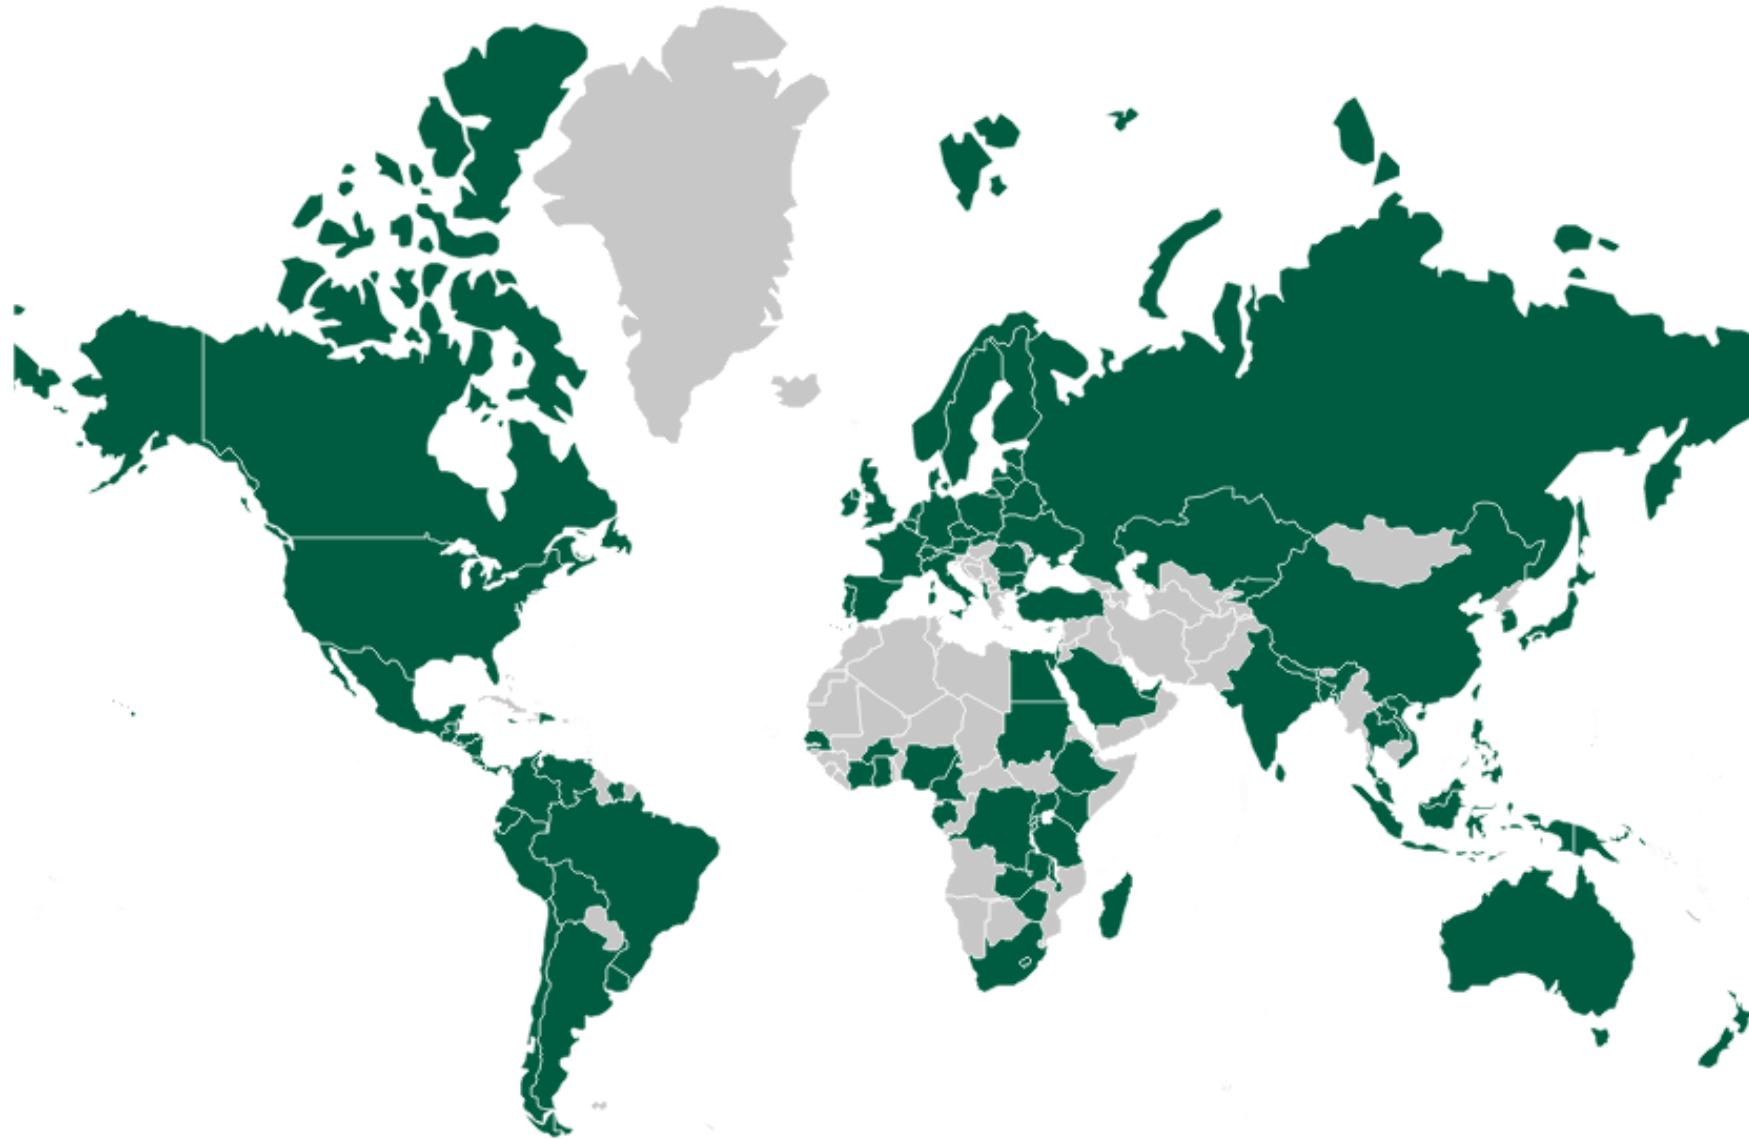

Structure组织架构

NEPCon projects and client services are offered through headquarters and regional teams with local staff based in strategic parts of the world.

Our team in the world 全球团队

240+ employés 员工

31 pays 国家

44 nationalités 国籍

Reseau de 200+
consultants 专家顾问

27 办公室 bureaux

enregistres en Europe,

Afrique, Amerique,

Russie et Asie 遍布欧洲、

美洲、俄罗斯、非洲和亚洲

LegalSource Standard 标准简介

Definition of “legal” according to EU

欧盟对合法采伐的定义

“legally harvested means harvested in accordance with the applicable legislation in the country of harvest”

Legality category	Legality Sub-Category
Legal rights to harvest	<ul style="list-style-type: none">Land tenure and management rightsConcession licensesManagement and harvesting planningHarvesting permits
Taxes & fees	<ul style="list-style-type: none">Payment of royalties and harvesting feesValue added taxes and other sales taxesIncome and profit taxes
Timber harvesting	<ul style="list-style-type: none">Timber harvesting regulationsProtected sites and speciesEnvironmental requirementsHealth and safetyLegal employment
Third parties' rights	<ul style="list-style-type: none">Customary rightsFree, Prior and Informed ConsentIndigenous peoples rights
Trade & transport	<ul style="list-style-type: none">Classification of species, quantities, qualitiesTrade and transportOffshore trading and transfer pricingCustom regulationsCITES

Ref: Regulation (EU) No 995/2010

Standard aligned on the EU TR, US (Lacey Act) and Australia (The Australian Logging Bill) requirements
标准已经结合了EUTR、美国雷斯法案、澳大利亚非法采伐禁令等法规要求

Introduction and Scope 简介和范围

Quality management and due diligence requirements

This is the main normative part of the standard.

质量管理和尽职调查要求。这是其中主要的衡量标准。

Annex附录 1:

Risk assessment and legality
requirements for FMEs

森林管理企业的风险评估和合法性要求

Annex附录2:

Risk assessment and legality
requirements for the supply chain

供应链的风险评估和合法性要求

Due Diligence requirement LegalSource 尽职调查要求

1 Quality Management
质量管理

2 Access to Information
获取信息

3 Risk assessment
风险评估

4 Risk mitigation
风险减缓

质量要求
Quality management requirement

核心尽职调查体系
DD system

1. 合法木材采购承诺 Engagement à l'égard de l'approvisionnement légal
2. 职责和能力 Responsabilités et compétences
3. 制定程序 Procédures documentées
4. 质量控制和表现监督 Contrôle de la qualité et suivi des performances
5. 尽职调查体系范围 Champ d'application du système de diligence raisonnée
6. 获取信息 Accès à l'information
7. 风险评估 Évaluation des risques
8. 风险减缓 Atténuation des risques
9. 投诉 Documents de vente

LegalSource: new approach to certification 认证新途径

- Legal Source certification is a « product-based » certification, which mean it is the company who decided what the audit scope should be based on 是产品认证，意味着公司需要基于以下因素来确定认证范围：
 - ✓ The organisation (size, type of products, sites, single or group), 公司规模、产品类型、地点、单一还是多地点
 - ✓ Supply chain (complexity, number of products, number of suppliers, risks, risks mitigation measures) 供应链复杂性、产品数量、供应商数量、风险和风险减缓措施
- The company does its own Due Diligence (Responsabilising the company) 公司建立自己尽职调查体系
→ the company creates its own evaluation framework 公司可以建立的自己风险评估框架
- Can be used to evaluate 1st, 2nd and 3rd partie evaluation 可用于一方、二方和三方审核。
 - ✓ Evaluate DD 评估
 - ✓ Evaluate presence of Non Conformities at several levels 在多个层面进行评估
 - ✓ Verify risk mitigation measures 验证风险减缓措施
- Standard applicable to 标准适用于：
 - ✓ Forest managers 森林经营单位
 - ✓ Processors 生产商
 - ✓ Traders 贸易商
 - ✓ Imports et exports 进出口商
 - ✓ Retailer 零售商

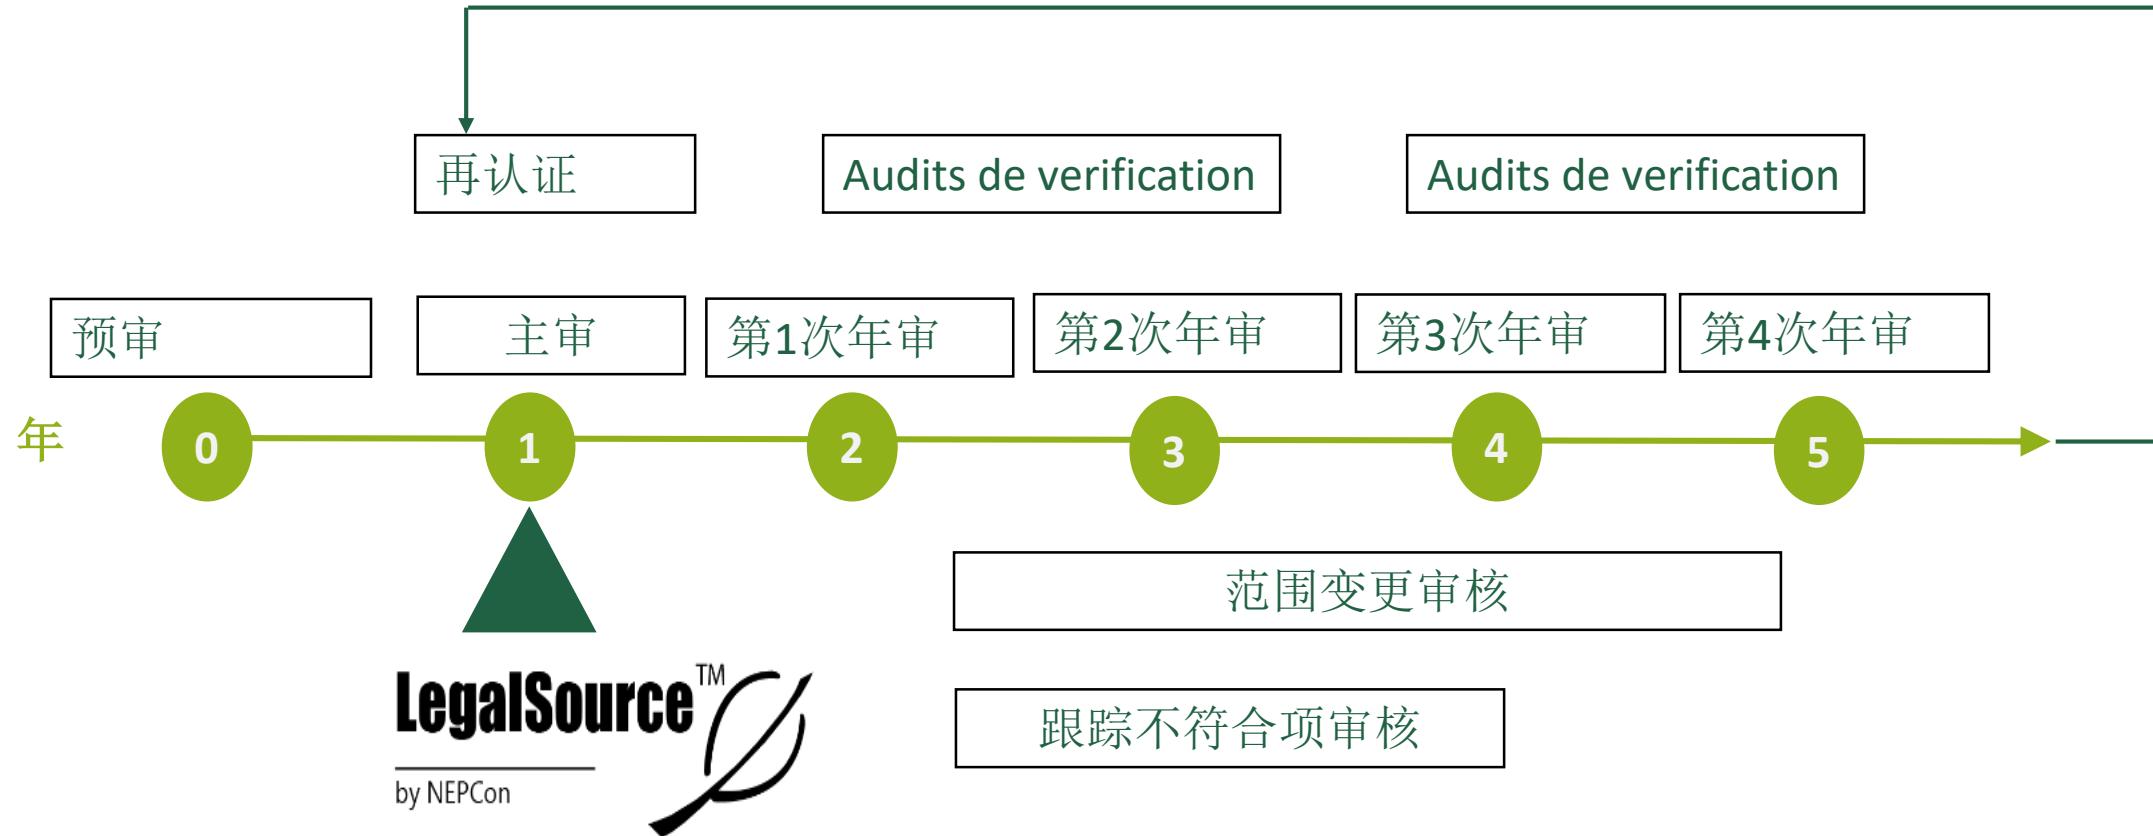

Evaluation of conformity at different levels:

评估不同层面的符合性

- Company engagement 公司政策和程序;
- Quality management of DD (risk evaluation, risk attenuation measures) 尽职调查体系的质量管理（风险评估、风险规避）
- Supply chain management and supply chain consent (if applicable) 供应商管理和获得供应商支持
- Onsite evaluation in the field at the forest level/or processing level 森林经营和加工过程的符合性
- Onsite evaluation at the supplier level
- Trademark use and communication 商标使用和沟通

Certificate Cycle : 5 years 认证周期5年

Types of non conformities 不符合性类型

MINOR RNC轻微 :

- Ne constituant pas un risque important que du matériel illégal ait été produit ou mis sur le marché
- Les RNC mineurs délivrés au cours des évaluations n'empêchent pas la délivrance d'un certificat.
- La RNC mineure identifiée au cours d'une évaluation peut avoir une période pouvant aller jusqu'à 12 mois
- Les RNC mineurs émis au cours d'une évaluation sont reclassés au rang de RNC majeur s'ils ne sont pas respectés dans les délais prescrits.

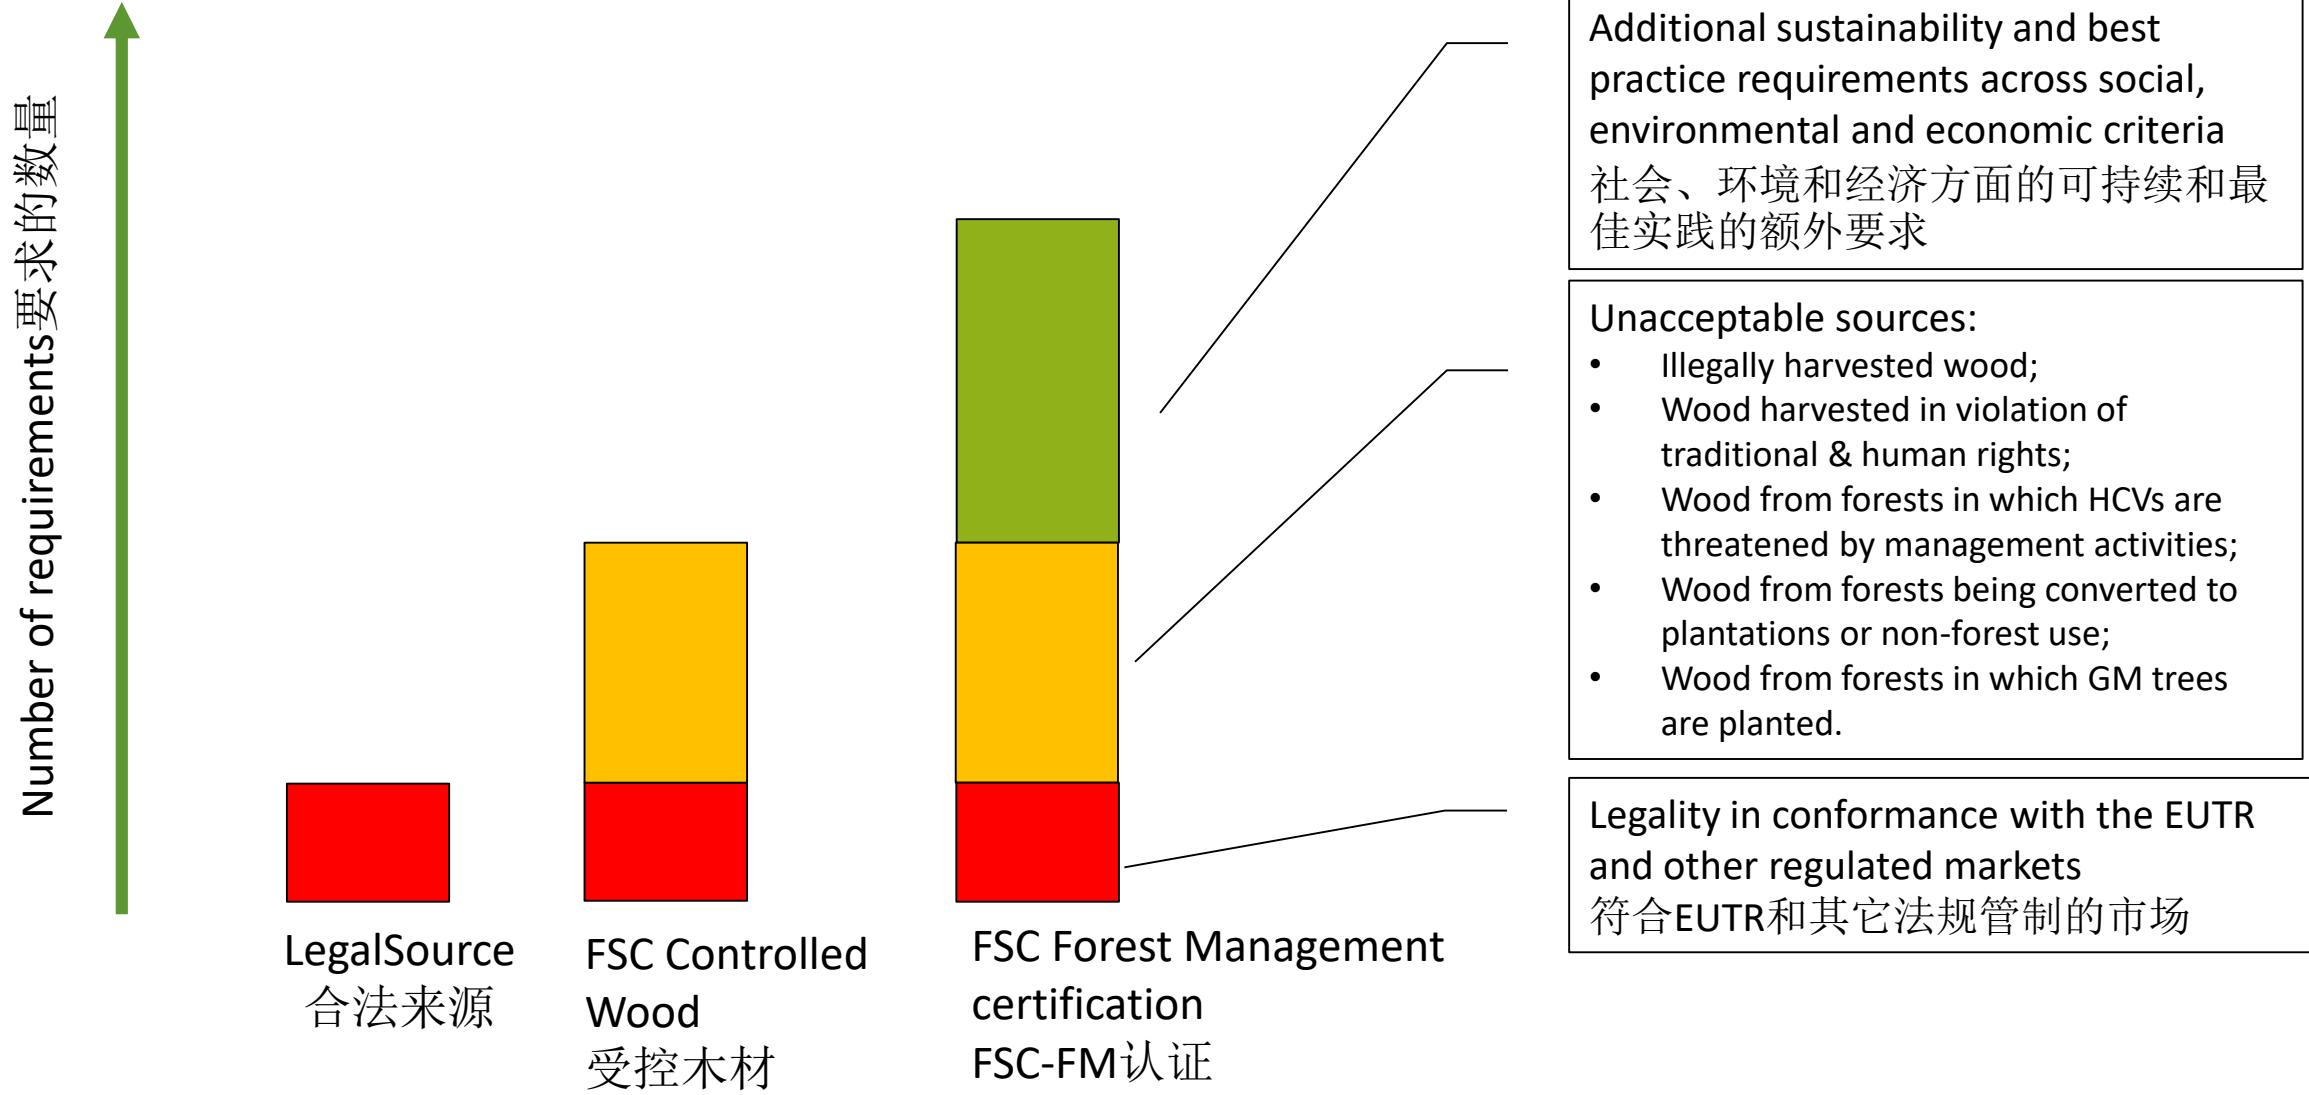

MAJOR RNC严重 :

- Toutes les RNC majeures pendant les ÉVALUATIONS doivent être fermées avant la certification.
- Le RNC majeur identifié au cours de la vérification annuelle doit être fermée dans un délai de 3 mois.
- Les principaux RNC émis au cours d'une vérification annuelle font l'objet d'une suspension s'ils ne sont pas respectés dans les délais prescrits.
- La survenance de cinq non-conformités majeures ou plus lors d'un audit annuel entraîne la suspension immédiate du certificat.

Observation 观察项:

- Lorsqu'une conformité est constatée, mais que des améliorations peuvent être apportées et qu'une observation peut être émise.

Relationship between LS, FSC CW and FSC的关系
